**Global Health Internship Kickoff!**

Closed captioning available. We’ll begin shortly.

**Wednesday, November 5, 2014**
**Start time: 11 am Pacific | 2 pm Eastern**

Shell Culp joined Stewards of Change after more than three decades in California state public service, where she most recently served as the Agency Information Officer for California Health and Human Services Agency. Shell also served as the Interim Director and Chief Deputy Director of the CHHSA Office of Systems Integration, where she oversaw a portfolio of systems integration valued at well over $5 billion. An innovator in government, Shell catalyzed CHHSA into its Open Data movement, and championed Health and Human Services interoperability efforts. Her passion for performance improvement in government also makes her a champion of organizational change management, and she speaks about these topics across the country.

Welcome to our presenters:

Elizabeth Baca  
Damon Davis  
Sandra Hernandez
Dr. Sandra R. Hernández became president and CEO of the California HealthCare Foundation in January 2014. CHCF is an independent foundation with assets of more than $700 million, headquartered in Oakland, California, and dedicated to improving the health of the people of California. Prior to joining CHCF, Hernández was CEO of The San Francisco Foundation, which she led for 16 years. She previously served as director of public health for the City and County of San Francisco.

POLL #2

What is your biggest barrier to using public health data?

a) Lack of funding
b) Security/privacy issues
c) Inability to integrate systems
d) Inability to find the data I need
e) Lack of innovation relevant to the work at hand
f) What do you mean? There are no barriers!
g) Other (please submit)
Damon Davis, MBA

Director for the Health Data Initiative
Office of the Chief Technology Officer
U.S. Department of Health & Human Services

Damon Davis serves as Director for the Health Data Initiative in the office of the Chief Technology Officer in the U.S. Department of Health & Human Services. He is responsible for leading the Department’s efforts to promote the Health Data Initiative, a movement devoted to implementing policies directed at improving access to federal data resources, and promoting the expanded uses of the data for applications and services to promote innovative solutions to problems in health, health care, and the delivery of human services.

POLL #3

What do you think would be the biggest change if your organization had better access to population-based data?

a) Saving time and money
b) Improving the quality of communications (reports, grant applications, website, etc)
c) Better decision making regarding allocating resources
d) Partnering with other organizations more efficiently
e) My organization already has great access to data- we aren’t using it
f) My organization already has great access to data- it is invaluable
g) I don’t know how we would use data yet, but I like the idea of it
h) Other (please submit)
Dr. Elizabeth Baca is passionate about innovations to foster total health and well-being. She currently serves as the Senior Health Advisor in the Governor’s Office of Planning and Research (OPR). She is engaged in innovation in the public sector to foster health through multiple projects including healthy planning, big data, and public-private partnerships.
POLL #5

What do you see as the most important next step in moving public health forward, with respect to using data?

a) Improved training for data resources that already exist
b) More access to specialized data resources for particular causes
c) Better integration of data systems already available
d) A wider understanding of the possibilities, to spark innovation in the general field
e) A wider understanding of the possibilities, to bring more advanced use of data in the workplace
f) Other (please submit)
