INTRODUCTION TO THE THREE BUCKETS OF PREVENTION

John Auerbach, MBA
Associate Director for Policy
Office of the Associate Director for Policy
Centers for Disease Control and Prevention
Improve health security at home and around the world

Better prevent the leading causes of illness, injury, disability, and death

Strengthen public health/health care collaboration
Meet Fran Edwards:

- Newly insured
- At MD for first physical in 5 years
- 55 years old, married, smokes, overweight, little exercise
- Asthmatic, high blood pressure
- Stopped taking medications in past due to cost
Insurance and Quality Care Help…
But the Following Also Contribute to Her Health

- **Income** - Low income, family of 5
- **Barriers to Fitness** - Rising crime rate, few parks, no nearby supermarket
- **Under stress** - Child with behavioral health concerns, worried about money
- **Sub-par Housing** - Mold and ventilation problems
What are Key National Trends?

- Increased access to health care coverage
- Payment reform emphasizes value
- Clinical care models more patient-centered/comprehensive
- Enhanced interested in prevention

87% of All Americans are Insured

- Employer
- Medicaid
- Medicare
- Other
- Uninsured

“Other” Insurance Coverage:
- Other Private – 6%
- Other Public – 2%

This is the Moment to Get to the Table
... Then What?
Three Buckets of Prevention

Traditional Clinical Prevention

1. Increase the use of evidence-based services

Innovative Clinical Prevention

2. Provide services outside the clinical setting

Total Population or Community-Wide Prevention

3. Implement interventions that reach whole populations
